DETAILED ACTION

Response to Amendment

Election/Restrictions

1. Applicant's election without traverse of claims 10-20 in the reply filed on 1-26-06 is acknowledged.

Claim Objections

1. Claims 10-20 are objected to because of the following informalities:
The claims recite the term "axel" which should be changed to --axle--.
Claim 10 line 10 has the misspelling "cantileverally".
In claim 12 line 8, "A" should be changed to --a--.
. Appropriate correction is required.

Specification

2. The disclosure is objected to because of the following informalities: The Specification has numerous occurrences of the term "axel" which should be changed to --axle--.
Appropriate correction is required.
3. The font size and poor fax transmission of the claims is such as to make reading difficult. New claim papers are required.

Claim Rejections - 35 USC § 112

4. Claims 10-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure..

Claim 10 line 14 states that the rod arms are interfaced with the exerciser base, but the rod arms are actually" interfaced with the vertical axle at a pivot point above the horizontal axle". This language substituted therein would clear up the indefinite and overcome the prior art.
